430 mm wide
386 mm high
35 mm deep

- Modern radio-controlled wall clock
- Automatic summer- / wintertime changeover
- The complex display of a full written weekday is unique for LED-Clocks
- High-contrast display
- Excellent readability up to viewing angles of 160°
- Large display for long reading distances
- Closed LED-segments for a better weekday display
- Flat and modern design
- High-class front panel
- Mains operation 230 Volt
- Many options

Our innovative technology enables first time to integrate a well operating DCF-77 radio-receiver into LED-Wallclocks. Therefore in 90% of all installations any annoying wiring of antenna is now unnecessary!

A radio-controlled wall clock with precise time, date and weekday display, equipped with an installed DCF-77 antenna and a very flat and modern housing.

LW 57-38-WD
