

# LCD Universal time clock

**CW 600**

**CW 600**

silver

VA-Steel

RAL

57 cm wide  
46 cm high  
4 cm deep

Radio controlled and modern universal time clock in a classy design. Automatical summer- / wintertime changeover.

The universal time can be programmed according to customer specification. The clock operates autonomous due to radio reception and battery power.

The large digits allow long reading distances for medium-sized rooms. The labelling of universal times can be done by our factory or by the customer.

All segments offer a high contrast for excellent readability even from wide viewing angles and almost all lightning conditions.

This clock can be installed everywhere. Onto each wall. Easy, quick and cost saving! Wireless installation. No cable necessary for power supply or radio antenna.

- Radio controlled
- Wireless installation
- High contrast display
- Large digits for time display
- Excellent readability also from wide viewing angles
- Symbols for radio reception, battery capacity etc.
- Menu guidance for manual settings
- Flat and modern design
- Battery life appr. 2 years
- Programming and labelling on customer request
- Many further options

**A clock for saving banks, conference room, reception desks and retail stores.**
