LCD-Digitalclock for large rooms and areas

C 90

C 90

42 cm wide
28 cm high
3 cm deep

New: Very flat and exclusive frontpanel design. The sanded Alunox material looks like satin-stainless-steel but leaves no fingerprints and is easy to clean.

Gapless digit segments for a better readability. The large 90 mm digits enable long reading distances for large rooms and floors. Therefore they are ideal for offices, conference rooms, receptions, etc.

All Segments have an excellent contrast for excellent readability also from wide viewing angles and during almost all lightning conditions. .

This clock can be installed wireless onto each wall. Easy, quick and cost-saving!

- Radio-controlled
- Wireless installation
- High contrast display
- Large and gapless digits for long reading distances
- Excellent readability even from wide viewing angles
- Symbols for radio signal reception, battery capacity etc.
